

MANUAL 3 — COMPANY USER

MANUAL (Version 1)

Role: Company User

Audience: Employees or team members working inside a company

1. Welcome

Welcome to the **Asset & Issue Prioritisation System**.

As a **Company User**, you are part of your company's daily operations.

Your main responsibilities include:

- Viewing assets assigned to you
- Reporting issues
- Updating issue progress
- Communicating with your Company Admin

This manual helps you use the system confidently and efficiently.

2. Quick Start (1-Minute Overview)

1. Log in using your company credentials.
2. Your dashboard shows:
 - Assigned assets
 - Open issues
 - Quick actions
3. Use the left menu to navigate:
 - Assets
 - Issues

4. Create issues or update existing ones as needed.

3. Your Role Explained

As a Company User, you:

- Work with assets assigned to you
- Report issues when something needs attention
- Update issue status as you work on them
- Communicate with your Company Admin through issue comments

You do **not** manage other users or company settings.

4. Navigation Guide

Dashboard

Shows:

- Your assigned assets
- Your open issues
- Recent updates
- Quick links

Sidebar Menu

- **Assets**
- **Issues**

Simple and focused — only what you need.

5. Core Features

5.1 View Assigned Assets

You can:

- See all assets assigned to you
- View asset details
- Check asset status
- Search and filter assets

How to View Assets

1. Go to **Assets**
2. Browse the list
3. Click an asset to view details

5.2 Create an Issue

If you find a problem with an asset or process, you can report it.

Steps to Create an Issue

1. Go to **Issues**
2. Click **Create Issue**
3. Enter:
 - Title
 - Description
 - Priority
 - Asset (optional)
4. Submit

Your Company Admin will review and assign it.

5.3 Update an Issue

You can update issues assigned to you.

You can:

- Change status (Open → In Progress → Resolved)

- Add comments
- Attach files (if enabled)

How to Update

1. Go to **Issues**
2. Select the issue
3. Update status or add comments

5.4 Track Issue Progress

You can:

- See who is assigned
- View comments
- Check status changes
- Follow the issue lifecycle

This helps you stay informed and aligned with your team.

6. Best Practices

- Report issues as soon as you notice them
- Provide clear descriptions
- Update issue status regularly
- Add comments to keep your admin informed
- Check your dashboard daily

These habits help your company operate smoothly.

7. Troubleshooting

Issue not visible

- Refresh the page

- Check if the issue is assigned to you

Cannot update issue

- Only assigned users can update
- Contact your Company Admin

Asset missing

- Check if the asset is assigned to you
- Contact your Company Admin

8. Future Enhancements (Placeholder)

- Notifications
- Mobile app
- Auto-prioritisation
- Asset lifecycle tracking

9. Support

For help, contact your Company Admin.
